EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 5-13 have been canceled for being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 26, 2005.

2. Claims 1-4 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest: in claim 1, an optical recording medium having information tracks including groove and land tracks, addresses provided on a substrate, and uneven strings of pits arranged so that center lines of the strings of pits are shifted in a radial direction of the recording medium at a distance of about one-half of a track pitch from center lines of the groove tracks and center lines of the land tracks, and a pit width W of the pits satisfies the relationship: $T_p \times 0.37 \leq W \leq T_p \times 0.63$ with respect to a track pitch T_p of the recording medium. The Applicant specifies (see the disclosure on page 3, paragraph 3) that this claimed relationship between pit width and track pitch is a critical element that provides an optical recording medium that allows reliable address information reproduction, and an optical disk device that allows an increased reproduction margin in demodulating address

information, thereby achieving high-accuracy address detection, which advantages are not found in the prior art.

Claim 3 has similar allowable features as claim 1.

Claims 2 & 4 are dependent upon allowed base claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
